> God is, or is not. But towards which side will we lean? Reason cannot decide anything. There is an infinite chaos separating us. At the far end of this infinite distance a game is being played and the coin will come down heads or tails. How will you wager? Reason cannot make you choose one or the other, reason cannot make you defend either of the two choices.
> So do not accuse those who have made a choice of being wrong, for you know nothing about it! 'No, but I will blame them not for having made this choice, but for having made any choice. For, though the one who chooses heads and the other one are equally wrong, they are both wrong. The right thing is not to wager at all.'
> Yes, but you have to wager. It is not up to you, you are already committed
